Cambridge IGCSE™

DESIGN & TECHNOLOGY
Paper 1 Product Design

May/June 2020
1 hour 15 minutes

You must answer on the two pre-printed A3 answer sheets.

You will need: Two A3 pre-printed answer sheets (enclosed)
Standard drawing equipment
Coloured pencils

INSTRUCTIONS

● Answer one question.
● Use an HB pencil for any drawings and a black or dark blue pen for any writing.
● Write your name, centre number and candidate number in the space on both pre-printed answer sheets.
● Answer in the space provided on the answer sheets.
● Do not use an erasable pen, staples, paper clips, glue or correction fluid.
● Do not write on any bar codes.
● You may use a calculator.
● You may use standard drawing equipment, including coloured pencils.
● At the end of the examination, hand in your named A3 answer sheets. Do not fasten them together and do not punch holes in the sheets or tie with string.

INFORMATION

● The total mark for this paper is 50.
● The number of marks for each question or part question is shown in brackets [ ].
● All dimensions are in millimetres.
1 **Problem:**
Children in a school gardening club use a range of small hand-held tools.

Design a portable unit that would hold the gardening hand tools and equipment shown.

(a) List **four** additional points about the function of such a portable unit that you consider to be important. [4]

(b) Use sketches and notes to show **two** ways of securing small cylindrical objects. [4]

(c) Develop and sketch **three** separate ideas for the portable unit. [12]

(d) Evaluate your three ideas. Choose **one** idea to develop further and justify your choice. [8]

(e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]

(f) Suggest **two** suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]

(g) Outline a method that could be used to manufacture **one** part of your solution drawn in part (e). Include the names of the tools used. [6]
2 **Problem:**
Plant seeds are normally sold in paper packets. The seeds are small and difficult to sow at the correct distance apart.

Design new packaging for the seeds that would help to sow them at the correct distance apart.

(a) List **four** additional points about the function of such packaging that you consider to be important. [4]

(b) Use sketches and notes to show **two** methods of dispensing small objects. [4]

(c) Develop and sketch **three** separate ideas for the packaging. [12]

(d) Evaluate your three ideas. Choose **one** idea to develop further and justify your choice. [8]

(e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]

(f) Suggest **two** suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]

(g) Outline a method that could be used to manufacture **one** part of your solution drawn in part (e). Include the names of the tools used. [6]
3 Problem:
Birds like to eat small plants.

Design a powered device that would scare birds away from a garden.

(a) List four additional points about the function of such a device that you consider to be important. [4]

(b) Use sketches and notes to show two power sources for such a device. [4]

(c) Develop and sketch three separate ideas for the device. [12]

(d) Evaluate your three ideas. Choose one idea to develop further and justify your choice. [8]

(e) Draw, using a method of your own choice, a full solution to the design problem. Include construction details and important dimensions. [12]

(f) Suggest two suitable specific materials for the solution you have drawn in part (e) and give reasons for your choice. [4]

(g) Outline a method that could be used to manufacture one part of your solution drawn in part (e). Include the names of the tools used. [6]
