DESIGN AND TECHNOLOGY

Paper 1  Product Design

Candidates answer on the pre-printed A3 Answer Sheets.

Additional Materials:  Standard drawing equipment and coloured pencils.

READ THESE INSTRUCTIONS FIRST

Write your Centre number, candidate number and name in the spaces on both printed Answer Sheets.
Write in dark blue or black pen.
You may use an HB pencil for any diagrams, graphs or rough working.
Do not use staples, paper clips, glue or correction fluid.

DO NOT WRITE IN ANY BARCODES.

Answer one question.

Write/draw your answers in the spaces provided on the Answer Sheets.
You may use a calculator.

At the end of the examination, fasten all your work securely together.
The number of marks is given in brackets [ ] at the end of each question or part question.
The total of the marks for this paper is 50.
Answer one question only on the A3 pre-printed answer sheets provided.

Car owners use a variety of cleaning materials when cleaning their cars.

Design a holder that will keep car cleaning items in one place ready for use.

(a) List four additional points about the function of such a holder that you consider to be important. [4]

(b) Use sketches and notes to show two methods of allowing water to drain from the bottom of the holder. [4]

(c) Develop and sketch three ideas for the holder. [12]

(d) Evaluate your ideas and justify why you have chosen one idea to develop more fully. [8]

(e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and important dimensions. [12]

(f) Suggest two suitable specific materials for your solution and give reasons for your choice. [4]

(g) Outline a method used to manufacture one part of your solution. [6]
Design a holder to display car brochures neatly. The holder should be made from lightweight materials so that it can be posted to car dealers.

(a) List four additional points about the function of such a holder that you consider to be important. [4]

(b) Use sketches and notes to show two methods of joining lightweight materials temporarily. [4]

(c) Develop and sketch three ideas for the holder. [12]

(d) Evaluate your ideas and justify why you have chosen one idea to develop more fully. [8]

(e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and important dimensions. [12]

(f) Suggest two suitable specific materials for your solution and give reasons for your choice. [4]

(g) Outline a method used to manufacture one part of your solution. [6]
It can be difficult to carry out tasks at night when holding a torch at the same time.

Design a device that would hold a standard torch of the type shown so that tasks could be carried out with both hands.

(a) List four additional points about the function of such a device that you consider to be important. [4]

(b) Use sketches and notes to show two mechanisms that could be used in adjustable devices. [4]

(c) Develop and sketch three ideas for the device. [12]

(d) Evaluate your ideas and justify why you have chosen one idea to develop more fully. [8]

(e) Draw, using a method of your own choice, a full solution to the problem. Include construction details and important dimensions. [12]

(f) Suggest two suitable specific materials for your solution and give reasons for your choice. [4]

(g) Outline a method used to manufacture one part of your solution. [6]
